## Hamilton “look-alikes” match old-box styles in new sizes

We welcome safe deposit box orders where you have to match new, larger sizes with older style boxes. And we do an outstanding job of matching boxes made by companies other than Hamilton.

Our engineers are experts at matching safe deposit box finishes, hinges and locks of several manufacturers and at tailoring new boxes to old space requirements. In

most cases we can make the boxes you order today look like your original installation.

We know that modern banking customers want larger safe deposit boxes and because of that, many “2x5s” (or other small sizes) are going unrented. Our “look-alikes” will replace old boxes with the sizes your customers want—in the style you have to have.

## Hamilton manufacturing—dedicated to quality and fast delivery

In order to provide you with reasonable delivery time, yet maintain high standards of quality, Hamilton has dedicated substantial resources to the manufacture of safe deposit boxes.

Thousands of square feet of factory space accommodate the work stations, the machinery, painting and finishing equipment for Hamilton safe deposit boxes.

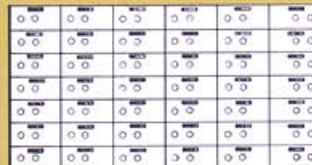

At the same time, these facilities give us flexible production capabilities. Orders requiring custom work move down their own production line so production isn't interrupted.

Low maintenance is the key benefit to these never-rust boxes. Their modern up-to-date appearance just won't fade with time.

And the price of Hamilton stainless steel boxes is low, much lower than many competing units, but not much more than carbon steel boxes.

Mix and match various modules to fit your specific needs. Choose from 12 different configurations. Modules are provided in two basic sizes, 22" high x 32<sup>5</sup>/<sub>8</sub>" wide x 24" deep and 22" high x 21<sup>7</sup>/<sub>8</sub>" wide x 24" deep.

Mix and match any combination of up to six different sizes with our modular safe deposit boxes.

Available in your choice of polished carbon steel or rustproof alloy, modular safe deposit boxes are the natural choice for new installations or remodeling where you don't have to match existing boxes.

The overall size of each module is 16" high, 32<sup>5</sup>/<sub>8</sub>" wide, and 24" deep.

**Sales & Service.** We sell our products through what we believe is the finest sales network in the nation.

Each of our more than 200 sales and service representatives is an independent business man or woman who wants to earn and maintain your trust and trade. Each is willing to invest time and money in the belief that they can meet your security and banking equipment needs better than anyone else.

The Hamilton dealer who calls on you will do everything possible to make sure that you are satisfied—in the hope and expectation that you will do business with them again in the future. The same people who sell Hamilton equipment provide maintenance and repair service.

Because they're close by and have a vested interest in your satisfaction, quick service is never far away.
